

## ***ABSTRAC***

*This study aims to determine the effect of Corporate Social Responsibility and Financial Slack on the company's financial performance. The purpose of this research is to obtain empirical evidence about: Corporate Social Responsibility, Financial Slack and Company Financial Performance. The population of this study are companies listed on the Indonesia Stock Exchange (IDX) and the Bloomberg website for 2015-2021 which have complete data for research. The data collection technique used in this study was a purposive sampling method.*

*The results show , first CSR disclosure has a significant negative effect on the company's financial performance, secondly Financial slack has a significant positive effect on the company's financial performance, thirdly Financial Slack is not able to moderate the relationship of Corporate Social Responsibility to the company's financial performance. From the results of simultaneous testing of the F test, it can be seen that CSR and Financial Slack together have a significant effect on the company's financial performance.*

*Keywords: Corporate Social Responsibility, Financial Slack, Company's Financial Performance*
