

ABSTRACT

This study aims to examine the effect of stakeholder pressure on environmental, social, and governance disclosure for companies that listed in Indonesia Stock Exchange in 2020-2022. Variables used in the examination are creditor pressure, media coverage and industry group as independent variable, environmental, social, and governance disclosure as dependent variable.

Research population is all companies listed on Indonesia Stock Exchange (IDX) in 2020-2022. The sampling techniques used purposive sampling and resulting 213 samples. Hypothesis testing was carried out using partial least square.

The result of this study shows that creditor pressure and media coverage have a significant positive effect on environmental, social, and governance disclosure. However, industry groups have positif effect but not significant.

Keywords: *creditor pressure, media coverage, industry group, environmental social and governance disclosure*
