

## **ABSTRACT**

*The purpose of this research is to find out and obtain empirical evidence of the effect of environmental disclosure, social disclosure and governance disclosure on firm value listed on Bloomberg and to participate in the assessment of Company Performance Rating in Environmental Management (PROPER) in 2014-2019.*

*The population in this study were manufacturing companies registered with Bloomberg in 2014-2019. Sampling in this study using purposive sampling method with a total of 13 samples of companies with the number of observation units 47 which are manufacturing companies registered in Bloomberg and get PROPER rating. The analysis technique for testing the hypothesis uses multiple linear regression analysis.*

*The results of this study indicate that environmental disclosure and social disclosure have a positive effect on firm value, while governance disclosure has no effect on firm value.*

**Keywords:** *Environmental Disclosure, Social Disclosure, Governance Disclosure and Firm Value.*
