

## **ABSTRACT**

*This study aims to determine the analysis of the influence of good corporate governance and corporate social responsibility on financial performance (study on food and beverages companies listed on the Indonesia Stock Exchange in 2017-2019). The sample in this study were food and beverages companies listed on the Indonesia Stock Exchange from 2017 to 2019. The sample used was 15 observations from 30 companies for 3 years with purposive sampling technique. The analysis technique used is descriptive statistical data analysis, classical assumption test, multiple linear regression analysis and model goodness test. The results showed that the audit committee had no significant effect on financial performance. The board of directors, the proportion of independent commissioners and CSR are significant to financial performance.*
